

Love History

A documentary film by Klub Zwei, www.klubzwei.at

Female descendants of Nazi perpetrators and followers talk about their family members and relate the stories to their own lives. In the process, the film remains in public space. Scandalous facts like the acquittal of Nazi criminals in Austria are listed more than told, while the camera is aimed at public buildings. The facts speak for themselves and do not need to be emphasized with stirring images. Daniela Ingruber (translated by Emily Lemon)
